Extreme Community Makeover

This hands-on project has not only put the body of Christ in relationship people who need to be loved but has put churches in meaningful, positive partnerships as they work together to bless a community one block at a time. Your community can volunteer to take on one block of this community by learning what is needed and putting together the people and resources to meet those needs on a Saturday of work and fellowship.

Urban Entry

This series of short videos is designed to stimulate discussion about ministering to others, asking questions about what is helpful, who we are reaching out to, and giving pictures of what others are doing. Set in context of urban ministry, the videos ask broader questions that could apply to any ministry to people different than myself.

Crossing Cultures

A one-day workshop designed to give people the tools to be cultural learners and build relationships across different cultures. Includes instruction on how to ask questions that can lead to cultural insights, hand-on experience relating cross-culturally, and a guided de-brief time.

Sean McKelvey, Caleb Resources (303) 459-5344
seanmckelvey@calebresources.org

Ethnographic Research Training

Learn the techniques behind the famous Caleb Project mobilization tools (prayer guides, videos, and strategy guides) in order to learn about the other cultures in your community. Includes practice using the techniques and instruction on documenting findings for future use.

Encountering the World of Islam

This 12-week course moves people from an awareness of Muslim cultures and beliefs to having a heart for Muslims to understand the gospel. Participants gain a vision for how to communicate the gospel to Muslims. This class features expert speakers (including Muslims) and interactive online learning tools.
